

RENAISSANCE[®]

Monitor progress and inform reading practice with data-driven insights.

For Primary and Secondary

RENAISSANCE
Star Reading[®]

RENAISSANCE
Accelerated Reader[™]

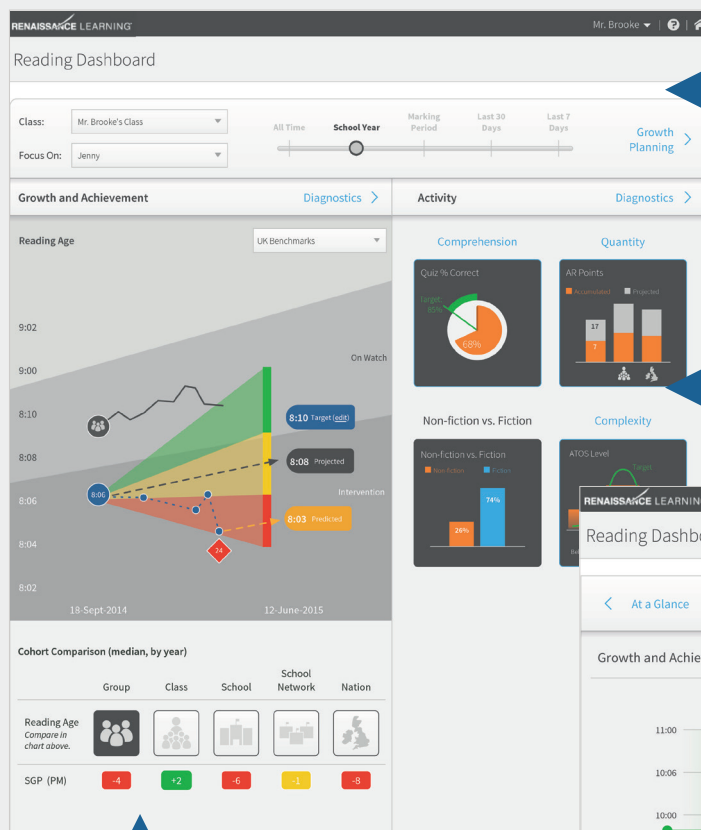

Renaissance Star Reading helps you bridge assessment and instruction.

Renaissance Star Reading is a computer-adaptive assessment that uses sophisticated item calibration and psychometrics to adjust dynamically to each student's unique responses. The test can be taken at any time throughout the year and as often as results are required.

Star Reading assessments are:

- **Valid and reliable:** The research-based test items meet the highest standards for reliability and validity. Star Reading assesses 475 grade-level skills in 11 domains, so you can maximise reading achievement for students of all ability levels.
- **Fast:** You can test an entire class in just 20 minutes, and you'll know immediately which students are meeting performance benchmarks and which students need help.
- **Actionable:** Star Reading generates concise screening, progress monitoring, instructional planning, and student growth reports. It also reports each student's current reading level, as well as a range of book levels within which the student will achieve maximum success.

Star Reading shows who has made progress and who hasn't. It also gives teachers the information they need to direct intervention effectively.

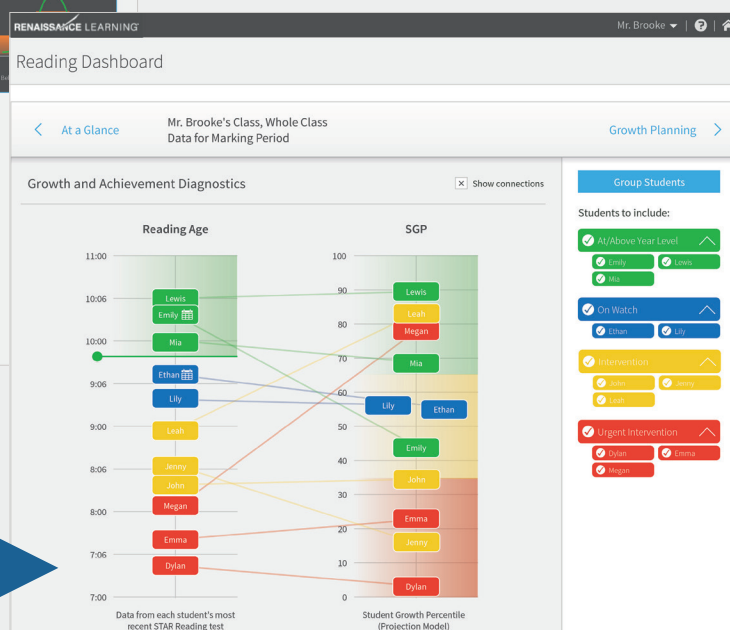

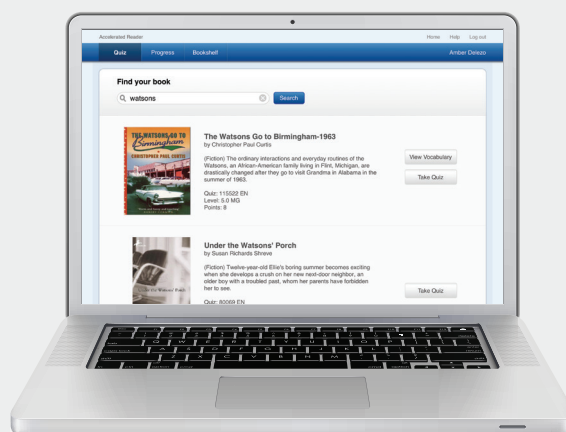

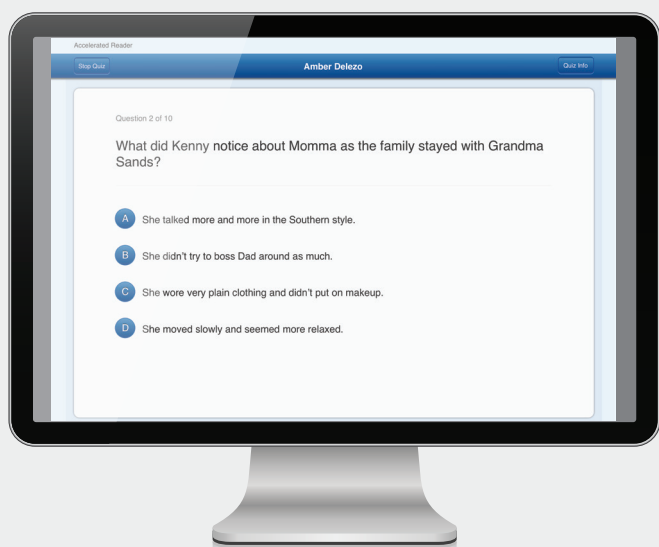

Growth comparisons can be shown graphically by group, class, school, group of schools or nationally.

Easily track expected reading growth for each student.

Reading growth projections can be obtained to the end of the school year.

Accelerated Reader and Star Reading data are combined into one page.

Reading practice with a growth mindset.

Develop lifelong readers and learners with Renaissance Accelerated Reader.

Renaissance Accelerated Reader enables powerful practice by helping you monitor and personalise reading activities, encourage practice, and reinforce understanding of content-area topics. It is a key part of a comprehensive reading programme that supports and enhances your instruction, textbook, and classroom materials.

With Accelerated Reader, you can:

- Motivate students for continual learning via self-selected reading practice
- Access reliable data on student comprehension of fiction and nonfiction texts
- Keep students challenged with books that are neither too easy nor too difficult

How does Accelerated Reader work?

- **Choose a book** - Personalised suggestions help students find books that match their interests and reading level. With more than 32,000 titles in the Australia-New Zealand collection, every student can find the right book.
- **Take a quiz** - Accelerated Reader provides a quick assessment of student reading comprehension.
- **Get instant feedback** - Teachers receive data immediately and students can view their progress toward reading goals.

Easily manage your titles with Accelerated Reader BookGuide™.

Accelerated Reader BookGuide is a collection management tool that automates alignment of your books with Accelerated Reader Quizzes. With AR BookGuide, you can see profiles on each of your books, create custom reading lists, and print book labels.

Accelerated Reader BookGuide integrates with Accelerated Reader BookFinder, an online tool that helps you match students with appropriate books. Students, parents, teachers, and librarians can use

Accelerated Reader BookFinder to search for books using criteria such as ATOS™ or Lexile® level, interest level, title, author, and/or subject.

Professional development to maximise success.

Manage personalised practice for reading growth.

Renaissance Star Reading and Renaissance Accelerated Reader work hand-in-hand to provide detailed assessment data to monitor progress and inform teaching while also managing independent reading practice.

Educators achieve more by combining these solutions with best classroom practices offered through Renaissance Learning professional development. With our professional development services, you will:

- Get to know how Star Reading and Accelerated Reader help you enhance instruction
- Learn best practices for identifying students' needs
- Establish classroom routines to personalise reading practice
- Understand how to best use student data to inform instruction

Take your implementation to a deeper level for greater student achievement. Based on careful consideration of your needs, we'll recommend a plan of services that's just right for you.
